Energy Consumption

Fixture Without Retrofit

[]

[Global Tech LED](#) high mast retrofits are being installed in Jacksonville, Florida by CSX Intermodal in order to lower its railroad operating [energy](#) and maintenance costs. These high mast [LED](#) modules incorporate clusters of LUXEON Rebel ES LEDs (a total of 168 LUXEON Rebel ES LEDs per [fixture](#)) and provide exceptional quality of [light](#) at 40,000 lumens per [fixture](#). Using LUXEON Rebel ES instead of the incumbent high pressure sodium lamps brings about extensive lifetime [energy](#) savings of over 2 million dollars, with a payback time of less than 3 years.

With Global
Tech
Retrofit 25%

Energy
Savings 75%

Learn more about the project [here](#).
