Global Tech LED Selects Jabil in Strategic Partnership

NAPLES, FL–(Aug 22, 2013) – Global Tech LED, the trusted leader in commercial and industrial LED Lighting, announced today that it has selected Jabil Circuit, Inc. (NYSE: JBL) as its primary global manufacturing services and supply chain management provider. Gary Mart, CEO of GTL, said, “We are confident that this partnership will provide significant benefits to Global Tech LED and our customers, including a more variable cost structure, greater flexibility to respond to changes in volumes or customer requirements, shorter cycle times for certain products, and enhanced quality management. As a world-class supply chain partner, Jabil has extensive experience in assembly and testing for companies around the world. We are excited about the opportunities for growth as we move forward with this partnership.” Global Tech LED, though a young company, founded in 2008 by Gary Mart and Jeffrey Newman has hit the market with full force and has established itself as the leader in commercial and industrial LED lighting. The ingenuity of design, application, and ease of installation has resulted in hundreds of thousands of modules installed around the world with less than a 1% failure rate. Global Tech LED is committed to manufacturing the world’s most universal and technologically advanced LED Systems. Keeping technology and manufacturing in the USA is a primary objective of GTL. Partnering with Jabil allows GTL to continue manufacturing in the USA and also allows products sold to other areas and countries around the world such as Brazil, India, and across the EU to be manufactured in the respective countries as well. With Global Tech LED, the future of lighting has arrived. Jabil is an electronic product solutions company providing comprehensive electronics design, manufacturing and product management services to global electronics and technology companies. Jabil helps bring electronics products to the market faster and more cost effectively by providing complete product supply chain management around the world. With more than 175,000 employees and 90+ facilities in 33 countries, Jabil provides comprehensive, individualized-focused solutions to customers in a broad range of industries.

At Global Tech LED, our commitment is to excellence in lighting design and manufacturing as well as keeping jobs in the United States. We appreciate your support.
