GTL & Rocky Mountain Power Trade Alliance

Global Tech LED (and Navigant Marketing) have been accepted by the The Rocky Mountain Power Energy Efficiency Alliance that has been developed to provide experienced professionals with improved business visibility, qualified business leads, incentive program training, sales support and notifications of program updates.

Rocky Mountain Power is the primary power company in the states of Utah and Idaho, as well as the states of Oregon, Washington and other surrounding parts of Northwest

states. Rocky Mountain Power has made it clear that they are very focused on Retrofit solutions rather than a new fixture solution. If you have any questions on how to apply for RMP's rebate program with the global Tech LED products, please contact Steve Forgy at Navigant Marketing, [303-278-8308](tel:303-278-8308).

At Global Tech LED, our commitment is to excellence in lighting design and manufacturing as well as keeping jobs in the United States. We appreciate your support.
